

Chop's Aquatics

Botanicals

Indian Almond Leaves

Shrimp & Décor

25 leaves per pack

Product Details

- Aquarium & Shrimp Safe
- Air Dried
- Imported
- Boil before use (brief rinse first)
- Leaves may float initially
- Replace every 3–6 weeks

We offer imported products as a supplement to our local lines. Indian almond leaves deliver a rich, dark tannin release — ideal for customers chasing that blackwater look.

Leaves may display minor natural markings consistent with seasonal forest conditions.

Natural Benefits

- Gentle tannin release
- May gradually lower pH
- Excellent surface for shrimp grazing
- Natural antifungal & antibacterial properties

As with any natural product, observe your aquarium inhabitants after introduction.

Use at your own discretion. Not responsible for livestock or equipment.
